Introduction

The first Strategic Priority for Southeastern is “To engage a diverse population of learners with powerful experiences.” In order to better understand the reasons why students leave Southeastern before graduating, Institutional Research & Assessment conducted the Non-Returning Student Survey, a phone survey of Fall 2011 cohort students who were not enrolled in Fall 2012. Students who had been suspended were excluded from the sample. This report details the results of the Non-Returning Student Survey.

Procedure

The Office of Institutional Research worked with Admissions to identify responsible, personable orientation leaders to conduct the phone survey. These students were trained and supervised by Institutional Research staff. The survey was conducted from 6 pm - 9 pm Monday through Thursday.

Instrument

The survey first asked a series of questions to determine if students planned on returning to Southeastern in the future, and if they had intended to obtain a degree when they began at Southeastern. Respondents who indicated they did not plan on returning to Southeastern were given a list of possible reasons why a student might leave college, and were asked to rate whether it was a major reason, a minor reason, or not a reason at all in their decision to leave Southeastern. Students who indicated that they did plan to continue their education at Southeastern were first asked when they planned to return to Southeastern. They were then

Results

The first set of questions was to determine whether students were: 1) Drop-Outs, those students who no longer plan to continue their education at Southeastern, including those who plan on or have transferred elsewhere; 2) Stop-outs, those students who plan to return to Southeastern at some point. Based on these definitions, 70% (n=154) of the respondents are Drop-Outs and 30% (n=65) are Stop-outs.

Stop Outs

The majority of the Stop-outs (37%, n=24) plan on returning to Southeastern in Fall 2013, while 22% (n=14) planned on returning to Southeastern within the next year. Eight percent (8%, n=5) plan on returning within the next two years, and 15% (n=10) are not sure when they will return.

Next, Stop-outs were asked to indicate whether each of nine possible reasons was a Major Reason, a Minor Reason, or Not a Reason for their decision to stop attending Southeastern for a while. "Had family responsibilities to take care of" was the item with the largest endorsement, with 60% of respondents indicating it was a reason they stopped attending Southeastern. This was followed by "Academic Problems" which 54% of respondents indicated was a reason they stopped attending.

Table 2 provides the percentage of endorsement for Major Reason, Minor Reason, and Not a Reason for each item.

Drop Outs

Most of the Drop-outs (81%) intend to finish their education elsewhere. When asked what school they have or will enroll in, the most commonly cited school was Baton Rouge Community College. Table 3 provides the schools students identified as having enrolled in or planning to enroll in.

Respondents were then asked what was the main reason they decided to attend another school. Thirty-four percent (34%) of the respondents indicated Southeastern did not have the major in which they were interested. Seventeen percent (17%) said they decided to attend another school because it is closer to home. An additional 11% transferred because of financial reasons. All the responses can be found in Appendix B.

Next, Drop-outs were asked to indicate whether each of thirty-eight possible reasons was a Major Reason, a Minor Reason, or Not a Reason for their decision to leave Southeastern. “Decided to attend a different college” was the item with the largest endorsement, with 66% of respondents indicating it was a reason they left Southeastern. This was followed by “Dissatisfied with your grades” (54%) and “Moved to a new location” (48%).
